

"INTERNATIONAL EXPRESS" Rates
European countries - Ukraine (Import - Export)

Rates are valid till 1 October, 2015

Nova Poshta has been offering express delivery services throughout Ukraine for 14 years.
Today we want to offer our customers new possibilities of delivery from 30 countries of Europe to Ukraine and in the opposite direction.
You've got already accustomed to an excellent service of Nova Poshta being a lot of our work, and now we're working out delivery technology within the trial period. This offer is valid for this trial period.
We are deeply grateful for your understanding and feedback!

ADDITIONAL INFORMATION:

- The weight of a shipment is calculated according to integer value in kg and non-integer value is rounded to the nearest integer (kg).
- The rate is given in US dollars per 1 shipment, all payments are made in local currency. The amount to be paid is fixed in the express way-bill.
- if the payment is performed by the Sender, then currency conversion is made at the rate of the country's National Bank as of the date of shipment transfer.
- if the payment is performed by the Recipient, then currency conversion is made at the rate of National Bank of the Recipient's country as of the date of shipment's customs clearance.
- The rate includes the following: taking the shipment in any locality in the country of Origin at the sender's address (for residents of Ukraine, the Republic of Moldova and Georgia sending and receiving of shipments can be done at Nova Poshta depots); international transportation; customs clearance at selected customs areas; delivery to the Recipient's address in any locality of the Recipient's country (or receiving shipments at Nova Poshta depots for residents of Ukraine, the Republic of Moldova and Georgia); VAT.
- Calculation formula for dimensional weight: length*width*height (cm) / 5000. Overweight either actual or dimensional is accepted for payment.
- If the value of shipments is more than 50 Euro, an extra 0.5% of the value is to be paid. If exporting from Ukraine - the equivalent in local currency (Ukrainian hryvnias).

6. For individuals importing to Ukraine: if shipment value does not exceed 150 Euros, then the simplified customs clearance is carried out without the participation of a client. When importing to Europe the simplified customs clearance is carried out for shipments with the value up to 22 Euros.
7. Nova Poshta reserves the right to change the list, volume, mode, rates and other conditions of rendering services without prior notice.

** - The rate set for Georgia is used only for Ukraine-Georgia direction (export from Ukraine to Georgia). This rate is used for all other countries for both import and export from Ukraine in the directions indicated.*
