**ADDITIONAL INFORMATION:**

- The weight of a shipment is calculated according to integer value in kg and non-integer value is rounded to the nearest integer (kg).
- The rate is given in US dollars per 1 shipment, all payments are made in local currency. The amount to be paid is fixed in the express way-bill.
  - if the payment is performed by the Sender, then currency conversion is made at the rate of National Bank of the Sender's country as of the date of shipment transfer;
  - if the payment is performed by the Recipient, then currency conversion is made at the rate of National Bank of the Recipient's country as of the date of shipment's customs clearance.
- The rate includes the following: taking the shipment in any locality in the country of Origin at the Sender's door (for residents of Ukraine, the Republic of Moldova and Georgia sending and receiving of shipments can be done at Nova Poshta depots); international transportation; customs clearance at selected customs areas; delivery to the Recipient's address in any locality of the Recipient's country (or delivery to Nova Poshta depots for residents of Ukraine, the Republic of Moldova and Georgia); VAT.
- Calculation formula for dimensional weight: length\*width\*height (cm) / 5000. Overweight either actual or dimensional is accepted for payment.
- If the value of shipments is more than 50 Euro, an extra 0.5% of the value is to be paid. If exporting from Ukraine - the equivalent in local currency (Ukrainian hryvnias).
- For individuals importing to Ukraine: if shipment value does not exceed 150 Euros, then the simplified customs clearance is carried out without the participation of a client. When importing to European countries the simplified customs clearance is carried out for shipments with the value up to 22 Euros.
- Nova Poshta reserves the right to change the list, volume, mode, rates and other conditions of rendering services without prior notice.

\* Taking / giving shipments on the territory of Ukraine, Republic of Moldova and Georgia are also possible at Nova Poshta depots.

\*\* The rate set for Georgia is used only for Ukraine-Georgia direction (export). This rate is used for all other countries for both import and export from Ukraine in the directions indicated.

\*\*\* The rates include areas 0, 1, 3, 4, 5 - these are areas in Ukraine and they represent areas for collection and delivery of shipments.
